Fellow Citizens:—At your last annual meeting you authorized the purchase of an additional lot of land for Division 1, and the purchase of a desirable lot, and the removal of a schoolhouse then located in what was formerly District No. 9 (or the building of a new one) to Division 5; also the purchase of additional land and the building of a new house in Division 4, all of which has been done, and we have very neat, commodious houses for all of our schools. Some repairs are needed in Division 3, and several of the houses should be re-painted at no very distant day, especially those in Divisions 1, 3 and 6.

Our schools on the whole, have been successful, although the winter terms were much broken up by sickness. Some of them at the very last of the term, were so interfered with, as to pre-

clude examination. Parents have shown quite an interest in most of our schools, by frequent visits, yet there are a few that the parents have paid but very little attention to.

Over $35 were expended in Division 2, in grading the yard and fixing the well, over half of which was contributed by citizens in that Division.

Our registers show that altogether too much time and money are wasted in tardiness and absence. This is an exceptional year for absentees, on account of the prevailing distemper called "La Grippe," especially during the winter term.

Free text-books will be in use hereafter, the changes, selection and purchase of which will be no easy task devolving upon the School Board.

Thanking all those who have in any way so kindly aided us in trying to secure good teachers, thus elevating the standard of our schools, and hoping for the same kindly feeling and treatment in the future, we submit this report.

Fellow Citizens: — In accordance with the law making towns furnish free text-books and supplies, you voted at your last annual meeting to raise $500.00 for that purpose. We have made changes in text-books as follows: Readers, Spellers, Historys and Grammars. We have added Natural Philosophy to the list of studies in our more advanced schools. We have

been obliged to exceed the appropriation in order to meet the demand.

We have made some repairs and improvements on school-houses and grounds. Several of our school-houses need to be painted. It will be necessary to make some change in the heating arrangements in Division No. 2.

Our schools as a whole, have been very successful. Some hard work has been done by pupils as well as teachers, and marked improvements have been made. We have a *very commendable* list of perfect attendants. A *few* show a lamentable want of interest by tardiness and non-attendance.

We regret that the town does not furnish facilities for more advanced studies. Many people are not able to send their children away to school, hence their education ends in the Grammar school. This is not as it should be in a town like this.

We have endeavored to get the latest and best text-books, so as to be abreast of the times in this respect.

No doubt we have made some mistakes, but our aim and object has been for the best interest of our schools, with what success you must be the judges.

Thanking all for their kind co-operation, we submit this report.

Fellow Citizens:—Another year has rolled around and we are again called upon to chronicle the events of the year in relation to our Schools.

A new furnace costing $145.41 has been put into the School House in Division No. 2, by the School Board, which seems to be a great improvement over the previous arrangement.

Other improvements are needed, such as painting and repairing School Houses in several Divisions.

As a whole the Schools for the year have been quite successful. The Fall and Winter terms were somewhat broken by sickness. Whooping cough prevailed during the latter part of the Fall and first of the Winter terms, and many scholars stayed out because they had it and many more because they were *afraid* they *would* have it.

Later on the la grippe raged to such an extent that we were obliged to close some of the Schools, before the terms were out. In the Primary School in Division No. 2, the School was reduced from 17 scholars to 4, and we closed the School during the 4th week. This of course will be made up at some future time, as well as some others that closed a week or two earlier than was intended.

You voted us $400.00 more school money this year than heretofore, a part of which is kept in reserve to make up these deficiencies.

Much interest has been shown in our village schools by the frequent visits on the part of parents, clergy, and other citizens, especially on examination days.

In some parts of the town, parents seem to take but little interest in the Schools, and frequently keep their children at home for the most trivial causes; they are very ready to find fault with the management of the teacher or the School Board, or both, without going near to see for themselves. None are so well qualified to criticise as those who make frequent visits. Some people seem to know nothing about a school until they hear something derogatory, and then they have great interest in the derogatory statement, but none in the merits of the school. Too many children are tardy, and too many get excused from school, thereby losing much valuable time. A child does not have the same interest, and cannot make the some progress who is frequently absent and tardy, that another makes who is on hand in the morning, and there every day; and frequently teachers are called poor teachers, and blamed because some scholars have not made better progress, when the facts are, the trouble lies right at the door of their own home.

The Grammar School in District No. 1, closed its Winter term with an excellent exhibition before a large and appreciative audience, in the evening. Much hard work was done in this school, and good results followed. The schools in Division No. 2, indulged in a very pleasant sleigh-ride, returning in the evening to the Town Hall, where a good supper was served by their parents, the band being present to enliven the scene with music.

We are hoping for facilities for more advanced studies in the near future, which we think would be of great advantage to the Town, as well as to the pupils. Hoping that some may profit by these suggestions, and show a greater interst in what so nearly concerns us all, and lend a helping hand to lift our

schools up to a higher plane, we close by thanking all who have so kindly given us their cooperation in our endeavors to labor for the best interests of all concerned.

CHARLES W. KELSEA,
ALFRED A. MILLER,
Auditors.

Antrim, N. H., Feb. 18th, 1892.

STATE OF NEW HAMPSHIRE.

L. S. To the Inhabitants of the Town of Antrim, in the County of Hillsborough, in said State qualified to vote in Town affairs:

You are hereby notified to meet at the Town House in said Town, on the SECOND TUESDAY OF MARCH next, at 10 of the clock in the forenoon, to act upon the following subjects:

1. To choose a Moderator for the year ensuing.

2. To choose all necessary Town Officers for the year ensuing.

3. To hear the report of the Auditors on the Treasurer's account, and act thereon.

4. To see how much money the Town will vote to raise for the support of Schools and to pay Town expenses the year ensuing.

5. To see what method the Town will take to repair Highways and Bridges the year ensuing, and how much money they will vote to raise for said purposes.

6. To see what method the Town will take to break out the Roads the year ensuing.

7. To see what disposition the Town will make of the Literary Fund.

8. To see if the Town will elect a Board of Library Trustees, and appropriate the money necessary to secure the gift of one hundred dollars' worth of books from the State, and authorize said Trustees to hire a suitable room for said Library.

9. To see if the town will vote to establish a Higher Grade of School in the North room of the School Building in Division No. 1.

10. To see how much money the town will vote to raise to carry the 9th article into effect.

11. To see how much money the Town will vote to raise or appropriate to finish off and seat said room.

12. To see if the Town will appropriate fifty dollars to assist Ephraim Weston Post, No. 87, G. A. R , in properly observing Memorial Day.

13. To see if the Town will vote to discontinue the Highway on the West boundary of the John G. Newman place.

14. To see if the Town will vote to buy one or more Snow Rollers.

Given under our hands and seal this twentieth day of February, in the Year of our Lord, Eighteen Hundred and Ninety-two.

GEORGE A. COCHRAN,

Remarks.

Fellow Citizens: — Time in its never ceasing rounds has brought us to the period of reporting to you our stewardship as members of the School Board.

Remembering that "a public office is a public trust," we have tried to fulfil the duties imposed upon us faithfully and impartially. Greater cares, and graver responsibilities, have been laid upon us than heretofore, consequent upon our improved school system.

The establishment of the High School we believe to be a step in the right direction, the results of which will show for themselves, especially to those who are at all familiar with efforts made by both teacher and scholar, and the work accomplished.

We have finished off the North room in the Waverly Hall building into a nice school room with 48 seats and plenty of black boards. We have put in a fine black board, extending across the North end of the Grammar School room and turned the seats facing it.

We have painted the school building, and put a new bell upon it, which was paid for by subscription. We have also painted the school houses at No. Branch and Division 6 known as the Pond district, the latter requiring three coats of paint According to vote of the District we have established another school in town known as Division 7 and caused a new school house to be built therein by appointing a building committee (according to vote) consisting of E. T. Worthley, E. Z. Hastings and C. E. Hills; the grading, fencing and furnishing devolving upon the school board.

Considerable time and labor has been spent in formulating rules, regulations; and grading of schools, also the courses of study to be pursued. And in order that pupils may advance step by step, certain examinations are required.

As a prerequisite to the High School we require written examinations in the following studies: Arithmetic, Grammar, Georgraphy, U. S. History, and Elements of Physiology. We require a general knowledge of these studies in the common schools, as they will be practically left behind in the High School where more advanced studies will be taken up. We were unable to begin the High School before the fall term, thus

beginning the school year. Of the $700.00 voted for the High School we have remaining $180.58 for next term.

The fall and winter terms all over town were much interfered with by measels, and their effects upon a large number of pupils, in consequence of which some of the terms were made shorter than they otherwise would have been. The severe and continuous cold weather throughout the winter has materially increased the expenses for wood.

As authorized, the School board have hired six hundred dollars with which to finish off the High School room, and four hundred dollars with which to build the school house in Division 7, and have given our notes for the same. This, with the twelve hundred dollar note held by the town, constitutes our indebtedness. We have taken up the last note of $905.41 at Peterborough Savings Bank, given five years ago, as one of a series of notes.

Believing that the education of our children is the best legacy we can leave them, and the greatest boon to the town in which they ripen into manhood and womanhood, we hope the High School will be maintained, not grudgingly, but liberally.

We would offer a few suggestions to parents: Don't keep your children from school a single day, unless absolutely necessary; teach them the importance of being there in season; don't allow them to get excused from school if you can prevent it; teach them the importance of a good deportment and good rank in their studies, the cards of which will be sent to you every week for inspection and signature—don't refuse to sign them as a matter of no importance. Where a number of schools close the same day it is impossible to visit them all the last day, so do not feel that the school is of no importance after the examination.

We are grateful for what has been done for the benefit of our school in the past and hope for long and continued prosperity in the future.

J. F. TENNEY, }
D. W. COOLEY, } School Board.

Remarks.

FELLOW CITIZENS:—In accordance with law, as well as custom, the School Board and Treasurer render to you an account of their stewardship.

The matter of securing ideal teachers, for all of our schools at a given price, when the price is much lower than such teachers as we would like can get elsewhere, is no easy task. But in almost every instance we think we have been remarkably successful during the year passed, and the work done has been very gratifying, so far as we know, to all parties concerned.

The shortness of the appropriations did not admit of our making up many of the losses that occurred last year on account of sickness.

A larger appropriation so as to give our schools from thirty to thirty-six weeks in the year, instead of from twenty-six to thirty, would be greatly to their advantage.

We have paid all outstanding debts against the district except one note of $1200 held by the town.

We have built an out-house in Division 1, with brick and cemented vaults, and ventilators, at an expense of nearly $250, (this will need to be painted in the spring.) This was done not only as a convenience, but as a sanitary measure.

The daily tread of 135 scholars for a series of years has worn the floors in the entrance way nearly through, and the floors in the two lower rooms in Division 1 are very thin and rough. At no very distant day these floors will have to be replaced with hard wood ones; and as a sanitary measure considerable painting should be done on the inside of the building.

We have cleared the school grounds and especially the margin on the roadside on Concord street of large boulders trees, bushes, &c., and graded the margin, thereby very much improving the looks of the street as well as the grounds. This was done not at the expense of the district, but by public-spirited citizens, either by subscription or volunteer service.

The High School has had two terms of twelve weeks each thus far, and we have remaining a sum of $230.44 for the next term in the year.

There are at present twenty-one scholars in the High School There will be a class of eight or ten to go in from the Grammar school next fall; and we hope, several from other divisions, thus making three distinct classes. There are many books of reference and chemical and philosophical apparatus, that we hope will be procured sometime in the future.

We might say the same thing in regard to teachers for this school that we have said in regard to others.

The grade of studies, and examinations for admittance, have been carried out as laid down last year.

No prevailing epidemic has visited us this year to materially interfere with our schools.

Some scholars seem to think that it shows no disrespect to their teacher or disregard to the regulations of school to leave school two or three days before it closes without informing anybody of their intentions. But we do not so consider it. And it seems to us that parents of integrity will not allow their children to do so. A scholar that fails to stand by at the examination, when a teacher is trying to show to the School Board and other visitors what has been accomplished during the term will fail in after life when responsible people are required for responsible places. The same characteristics will be manifest as now.

Thanking all who have so heartily co-operated with us, we are your obedient servants,

J. F. TENNEY,
D. W. COOLEY,
A. B. CROMBIE,
} School Board of Antrim.

REMARKS.

FELLOW CITIZENS: — Again it becomes our duty and pleasure to submit to you the annual report of our schools for the year ending Feb. 15, 1895.

For the most part our schools have been favored with good teachers, and honest work has been accomplished.

In our opinion it is a great mistake in not having longer terms of schools. Twenty-five weeks is altogether too short a school year.

Eight years is considered sufficient time to prepare for the high school in towns and cities where ten and twelve weeks per term are supported.

Shall our children take ten years for preparatory work because we cannot, or will not, give them thirty or thirty-six weeks in the year? or shall we continue by trying to crowd twelve weeks' work into eight or nine, and as a result have the satisfaction of knowing that we have SKIMMED over the ground, putting the motto that "What is worth doing at all is worth doing well" wholly out of existence?

We can afford many luxuries, electric lights, water, etc., etc., which is all right, and as it should be,—but why stop when it comes to the subject of the education of our children?

In order to secure good and trained teachers we have got to pay them well. This class of teachers are in great demand, and they are going where they can get the greatest pay; and who blames them?

We expect, or ought to expect, our teachers to take at least one educational periodical, attend Teachers' Institutes, visit schools, and, in fact, keep apace with all that pertains to improvements in the interests of our schools. How much of this ought we to demand of our teachers when we pay them only five and six dollars a week?

We have heretofore been troubled about finding teachers of reputation and experience for our High School for the price we could pay. This year (perhaps owing to the hard times), we have been fortunate in both these particulars. With the full course of three distinct classes and the amount of work laid out for each year, both teacher and scholar have all that they can attend to. Vigorous work is being done, with much study outside of the school room. And we think this High School compares favorably with any in the State. We have put in some chemical apparatus for the chemistry class, and hope additions will be made from time to time as they are needed. Apparatus should also be procured for the natural philosophy class. A separate room for a laboratory would be a great convenience. The school has purchased The International Encyclopædia, and other books of reference. We shall graduate the first class from this High School next June. We hope, however, that others will come in, so that the ranks will not be thinned. More have come in this year from the out districts than heretofore.

By way of repairs and improvements, we have sheathed and painted the entries to the school house, painted the lower hall and the primary and intermediate rooms in Division 1, and put in Blackboards in Divisions 1, 3, 4 and 7. We have also painted (outside) the school house in Div. 2 two coats. Have levelled across and plastered both rooms overhead in Div. 2, thus prevent-

ing the escape of the heat through the top of the rooms. Have shingled the house in Div. 3. The one in Div. 6 needs to be shingled and the one in Div. 4 to be painted. We have also put the precinct water into the school house in Div. 1, running a drain tile back in the same ditch and connecting it with the street drain. In doing this job we encountered some large rocks, consequently we exceeded our appropriation by some thirteen dollars, as accounts will show; while in some of the other matters we did not use quite all that was provided. We had the walls whitened in Divs. 2, 3, 4, 6 and 7. In Div. 3 plastering had to be patched. In consequence of these repairs the expense for cleaning school houses has been somewhat larger than usual. Some cupboards, recitation seats and other minor repairs have also been made.

In endeavoring to give all the schooling (which was too short at best) we could, we have run over our appropriations, as accounts will show.

In consequence of the winter terms being so short, the teachers in Div. 2, 3 and 4 kindly gave their services one week, which gave these schools a week more than the others had.

No prevailing sickness has marred our prosperity, and as a whole the attendance has been quite regular.

Parents and citizens have shown quite an interest in our schools by frequent visits.

The unexpended balance for the High School is for the next term, our school year beginning with the fall term. We have itemized our accounts at some length, as per vote at the school meeting.

All of which is faithfully submitted.

D. W. COOLEY,
A. B. CROMBIE,
A. E. GOULD, } School Board of Antrim.

ALFRED A. MILLER,
GEO. A. COCHRAN, } Auditors.

Antrim, N. H., Feb. 15, 1895.

Report of Overseer of Poor.

Paid Milton Tenney for keeping tramps to March 16, 1894,	$20 50
Harrington & Kibbey, for crackers and cheese,	3 42
Milton Tenney, food for tramps,	6 00
Putney & Little, goods for Mrs. A. J. Curtis,	16 02
	$45 94

In the report of last year there was $63.50 reported due the town from Hillsborough County. This was a bill for keeping tramps. The County Commissioners refuse to pay any such bills.

About the first of May a room was finished in the basement of the Town hall to accommodate tramps and other disorderly persons, and since that time we have furnished food and lodging for sixty-three tramps.

The town has only one person on the poor list. Mrs. Andrew J. Curtis applied for help last November, and she is boarded at C. W. Osborn's in Hancock, N. H., at an expense of one dollar a week to the Town.

CHARLES W. KELSEA,
Overseer of Poor.

REMARKS.

The years roll around one after another, and each revolution brings its annual duties, one of which is the summing up of accounts and reviewing the year's work in our schools; the results of which are—in many, if not nearly all respects, very satisfactory. In some instances we are aware there is opportunity for criticism, but as perfection is not acquired in any thing, we must not expect it in school matters, nor criticise too severely without thorough investigation.

We had planned for a certain number of weeks' schooling, not thinking of our last year's deficiency and not knowing of the depreciation in the Literary fund. Consequently we have exceeded our appropriations for our common schools. If the deficiency had been discovered sooner we would have closed the schools earlier.

The primary school in the village is over crowded, there being more children than one teacher can do justice by. Another department is demanded, hence the article in the Warrant to see what the District will do about building an addition to the school house.

We have added to the convenience of the High school by way of laboratory arrangements, etc.

A change in the manner of heating the village school building is much needed. We are already running six stoves with long stretches of pipe, and it is impossible to get an even temperature in all parts of the

rooms. It seems to us that a steam heating arrangement would not only add to the comfort, but be conducive to the health of our children; not only this, but we should do away with the greater part of danger by fire.

We have no disposition to "rob Peter to pay Paul," but many of our out-schools are growing smaller, while our village schools are growing larger, and it's but wisdom to make provisions for the increase and comfort of our schools.

Twenty-nine and thirty-one weeks of schooling which we have had this year is no more than we ought to have every year.

With the increasing business aspects of both town and country, it seems as though an increase of our appropriations for educational purposes would be conducive to our best interests.

We can speak of our High school only in the highest terms, believing we have a High school worthy not only the patronage of our own Town but of the adjoining towns. We have three tuition scholars from Bennington, and if the present high standard is maintained, we see no reason why many more will not come in.

The school, by giving exhibitions, has created a small fund and made a beginning of a permanent reference library, which it hopes to increase in the near future.

Quite liberal contributions have been made for the benefit of the laboratory connected with this school. Here is an opportunity for some generous hearted persons to help in a good cause which will not only redound to their credit but be of lasting benefit to this and future generations.

A class of eleven was graduated from this school last June, whose names are printed in this report. A class of seven will graduate next June, Providence permitting.

The school-houses in Divisions 4 and 7 have been painted, the one in Division 6 shingled, and we also dug a well and put in pipe and tub for water in Division 5.

Thanking all those who have in any way aided us in trying to elevate the standard of our schools, and hoping for your support in the future, we remain,

Your obedient servants,

A. B. CROMBIE,
ADELINE E. GOULD,
D. W. COOLEY,
} School Board of Antrim.

REMARKS.

According to custom we hereby give a brief summary of the events of the year pertaining to the interests of the Schools.

Owing to the increased number of children in the Primary department of the Village School, it was voted at the last annual School Meeting to appropriate $2,000.00 for additional rooms to the School Building, and $1,000.00 for steam heating arrangements.

It was the duty of the School Board to appoint a Building Committee. The Building Committee consisted of E. W. Baker, H. P. Kimball and D. W. Cooley.

After considerable time had been spent in making plans and specifications, the Committee found that they could not make the arrangements they desired and furnish the school room within the appropriation. The School Board came to the rescue and bought the furnishings, for the 1st Primary School room.

Some repairs and extras, outside the contract, were necessary, such as putting in cellar drain, laying foundation and making pit for furnace, painting old hall, putting in seats, desks, black-boards and teacher's desk in new room, etc., also some repairs and improvements on other school buildings, involving an expense of nearly

$250.00 outside of the regular school expenses. Thus leaving in our accounts an indebtedness to the School Board of $220.00.

So far as we are able to judge the steam heating apparatus does good work when properly attended.

The schools, in the main, have been very satisfactory. The High School is still enjoying its high state of excellence under the efficient management of Professor Small.

The 2nd Primary School was cut short about two weeks in the winter term on account of illness of the teacher.

The schools in out districts have been well managed under competent teachers.

Owing to the small number of scholars in Division 2, it was thought best to put the two Schools together under one teacher; in consequence of which that School was given two weeks more than the others.

Erroneous ideas prevail to some extent on the part of both parents and pupils in regard to regulations of schools, such as absenting themselves from school, being tardy, leaving school without knowledge or consent of the teacher, getting excused from school for reasons of very little consequence, etc. Much valuable time is thus lost, and teacher and scholars are put to great inconvenience by unlearned lessons. If pupils are required to make up the lessons passed over by the class during their absence, they have double duty to perform; if not so required, then they are behind their class.

Printed rules, regulations and course of study would obviate some of these difficulties.

$600.00 of the $3,000.00, appropriated for building and heating, was raised by taxation. The School Board have hired $2,400.00, giving their notes for the same.

We have now a very commodious School Building,

with one unfurnished room, which is occasionally used for a recitation room by the High School, a laboratory for philosophical and chemical work, with stationary table, sinks, and water on the third floor. This room is not finished, but makes a very convenient place for the purpose for which it was designed. This building in our judgement will answer our needs for a good many years.

The Building Committee generously gave their services.

Respectfully submitted,

ADELINE E. GOULD,
D. W. COOLEY,
A. B. CROMBIE,
} School Board of Antrim.

Antrim, N. H., Feb. 15, 1897.

REMARKS.

Since our last annual report the Town has added $2,478.00 to its debt. All but $128.00 was on the damage case of Mr. Grimes. Our counsel have not been paid, and when settled will add considerable more to the debt.

At our Town Meeting in March, 1896, it was voted that the Selectmen make an appraisal of the property owned by the Town and have it printed in our report of this year. We have attended to that duty and our report will be found on the following page.

This we understand is to show the amount of property we have on hand for which the greater part of the present debt was incurred.

We have endeavored to place a fair value upon the property and can safely say that the income of the Town Hall building itself will pay the necessary running expenses of the same, and also the interest upon the entire town debt.

In making the appropriations for the ensuing year we would ask you to examine each matter carefully and consider if the taxes to be assessed will be sufficient to pay them. Since 1894 our appropriations have been increased about $1,900.00, while the amount of taxes have decreased over $1,600.00. We are of course liable to meet with losses as in the Grimes case, but for our annual appropriations let us raise money enough to meet them.

Yours Respectfully,

SELECTMEN.

REMARKS.

Our schools this year have passed off very harmoniously. No special event has taken place that requires comment. No appropriation was made last year for repairs, but we have put in four new windows in the rear end of the High school room to let in more light, have furnished black-boards and chairs for the High school recitation room, have replaced a broken section in the boiler in Division 1, and put in a drain across the back yard to drain the cellar. More repairs are needed, and will be a necessity in the near future, such as hard wood floors and new black-boards in the lower rooms.

Good, vigorous work has been done in our schools. Scholars are learning to study, and what used to seem irksome is now deemed a pleasure; and there is nothing more satisfactory than to feel that we have accomplished something,—that our hard fought battles are victorious.

Music has been taught in all the schools. One hundred dollars was given by some unknown friend for the purpose of introducing vocal music in our schools. The services of W. G. White were secured for that purpose,

giving one-half hour each week to each room. Its continuance will depend entirely upon the action of the district.

We have paid one note of $600 and interest on the same, given to Mary Butler. There are still outstanding notes against the district amounting to $1,800.

Respectfully submitted,

D. W. COOLEY,
A. B. CROMBIE,
ADELINE E. GOULD,
} School Board.
